

Please do not preempt or weaken the law as it exists in the state of Indiana regarding the screening of unwanted sales calls.

Since I have been on Indiana's no-call list, I have significantly reduced the number of interruptions to my privacy by unwanted phone calls. We were routinely receiving 2 or 3 calls per evening, frequently during dinner or after 9 p.m. It is a total invasion of privacy to have these unwanted phone calls coming in evening after evening, and even on Sunday.
